

## **VET WEEK: Building Innovation in VET**

### **By FEMXA**

WEBINAR AGENDA  
18th May 2022; 11:00 to 12:00 AM

- 11:00 **Welcome speech**
- 11:05 **From Outdoors to Labour Market (FOLM) - A ground-breaking project to promote the integration of young people into the labour market through Outdoor Learning.**  
The implementation of a pioneering educational methodology has enabled to activate 990 people between 18 and 29 years of age, who were not in employment, education, or training in three European regions: Cantabria (Spain), Varmia and Mazuria (Poland) and Mid-West.
- 11:15 **New Education Forum+ – A platform for exchanging knowledge, experiences, and contacts in the fields of VET, the labour market, and Outdoor Learning.**  
Using Digital Tools in Outdoor Learning. Outdoor Learning and Vocational Education and Training. The New Education Forum+ platform aims at fostering the implementation of Outdoor Learning Methodology in VET through digital tools.
- 11:25 **Sparks project - Supporting VET providers to deliver innovative online learning through gamification.**  
Developing a new Conceptual Framework for Game-Based e-Learning Programs and e-learning platform to support educators in the use of gamification, with the aim of fostering learners' motivation and engagement in learning.
- 11:35 **Digital Facilitator Trainer Role (DigiFact) - An innovative response to enhance the digitalization of VET educators.**  
A new approach to give educators better tools to improve their digital skills with the creation of the Digital Facilitator Trainer (DFT) that offers digital resources for teaching in the VET community, especially in the areas of Gamification, Artificial Intelligence and Data Analysis.
- 11:45 **Women in Need - Promoting the social, cultural and professional integration of young female migrants.**  
Empowerment of migrant women through digital devices together with key training and tailored support provided by expert practitioners to facilitate their integration in the host country.
- 11:55 **PI-VET - Powering the Innovation in VET centres to foster a more inclusive, flexible and sustainable educational system.**  
The PI-VET project aims to promote new models of co-creation in VET through more effective and inclusive practices. The initiative has several phases and the Knowledge Fair marks the start of the first phase.
